

**NBA's Research and Design Team is conducting
a survey to better understand**

Young Adults living with Disabilities in the Church

We want to hear from you!

Our definition is more than visible Disabilities!

Disability arises when a person's **participation is impaired** by *physical, social, technological, or attitudinal* environments that are not designed to support the full range of human diversity.

These barriers often require individuals to seek additional **assistance to navigate the world.**

Disability is not located solely within an individual, but in how **society** accommodates, or **fails** to accommodate **diversity.**

Meet the team!

Rev. Diana Rodriguez

NBA Trustee, Licensed Social Worker specialized in Disabilities, and Vice Moderator of Obra Hispana

Mary C.
