

Witnessing Communities of Compassion and Care

We Are Witnesses
Acts 10:39

The pandemic caused hardship on many levels for Casa de Oración (Discipulos de Cristo) San Diego [CDO] and their local community. Many people lost their jobs and the critical income needed to support their families. This is one area where CDO stepped in to fill the gap.

During the pandemic, CDO saw a drastic uptick in people using their food pantry. Due to indoor gathering restrictions, they created a drive-through pantry in their parking lot. CDO partnered with local food banks to access food in bulk. Also, CDO received three National Benevolent Association Covid-19 Response Grants totaling \$20,000.

Members of Casa de Oración distributing food.

Each week, CDO offered large boxes with a wide variety of foods to over 100 families. Grant funds were used to purchase perishables and hygiene items, as well as protective gear for volunteers. “Many people are so grateful for this. We continuously receive thank you shout outs from all who benefited,” said Rev. Xosé G. Escamilla, Lead Pastor of CDO.

As the community began to recover, the members of Casa de Oración decided to make a donation as a gift of gratitude. “We received NBA support during times in which this ministry needed it the most. When we recovered, we couldn’t hold off from giving back so that NBA can continue to support other ministries doing the same. **Giving back is a witness to our belief of being true and genuine partners in ministry,**” said Rev. Escamilla. “Thank you again to NBA for partnering with us.”

The Easter Special Offering is one way to support General Ministries, including NBA. We receive over \$200,000 annually from your gifts to Disciples Mission Fund. This funding supports our partnerships with Disciples health and social service ministries – including CDO’s food program – to truly create communities of compassion and care. Thank you for your generous support!
